B.Pod MAPodA

Available: Monday, Wednesday and Friday

Available: Tuesday

The Victorian Podiatry Group, established in 2014, is a highly qualified and experienced team of podiatrists, offering comprehensive care for all areas of foot and ankle concerns. We work together and collaborate to provide a service that achieves outstanding results. We are located in clinics all over Melbourne. Collectively, the team of practitioners has over 75 years of experience working with elite sports teams, in private practice, public health and aged care settings.

WHAT IS A PODIATRIST?

A podiatrist is a university qualified expert in foot-care. Podiatrists assess, diagnose, treat and prevent pain and injuries to your feet, ankles and lower limbs.

HOW CAN A PODIATRIST HELP ME?

A podiatrist can help manage all foot and lower limb related problems, including;

- Heel pain/plantar fascial pain
- Ingrown toenails
- Ingrown toenail surgery
- Wart treatment (including Swift microwave therapy)
- Diabetes foot assessments
- Orthotics and Biomechanical assessments
- Children's foot problems (flat feet, heel pain, toe walking, intoe/pigeon toe)
- Skin and nail issues (fungal skin and nails, corns, thick nails)
- Ankle pain and sprains
- Bunions/big toe pain
- Ball of foot pain
- Stress fractures and management
- Arthritis in the feet
- Sports injuries
- Footwear assessment and advice

HOW CAN I ACCESS A PODIATRIST?

In most cases, a referral is not needed to book in with a podiatrist. However, if you have a referral please bring it with you to the appointment.

Veterans' Affairs, WorkCover, TAC and EPC/Care plan (Medicare) patients do require a referral to access the funding for podiatric treatment.

NDIS participants who are self or plan funded are welcome to book in to see how a podiatrist can help with your goals.

Appointments can be made online or by calling reception on (03) 9704 6812

CANCELLATION POLICY

If you fail to attend an appointment or make a late cancellation (within 12 hours of your appointment time), you may be charged a fee. If you fail to attend your appointment, it means other people may miss out on getting essential treatment, so please give us plenty of notice if you need to make a change.
